STEAMER CHELSEA BROKE UP YALE'S PRACTICE ROW. Varsity in New American Shell Had to

Come to a Stop.

Yale's ne wAmerican shell, equipped with English rigging—the gift of Ma-jor Louis E. Stoddard, '99—arrived at Gales Ferry from Boston late Tuesday and was given a satisfactory tryout on the river in a three mile row down stream late in the afternoon. It was planned to row four miles, but the steamer Cheisea crossed the course and the row was cut short on account of the big wash.

The first and second boats had a brush for three-quarters of a mile, the varsity winning by about a quarter of a length. The oarsmen rowed from 30 The freshmen experimented with a shell discarded by the varsity, but af-ter rowing two and a half miles returned to quarters.
Later the first year oarsmen had a paddle over four miles in another shell.
"Al" Swain of the rowing committee
was a visitor at quarters.

can take the place of bold-sulphur cream.

It effects such prompt relief, even in the aggravated Eczema, that it is a never-anding source of amazement to physicians.

For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parasiticidal, but antipruritic and antiseptic, therefore invaluable in overcoming irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance it instantly stops the agonizing itching; subdues the irritation and heals the inflamed, raw skin right up and it is often years later before any Eczema eruption again appears.

Those troubled should obtain from any good pharmacist an ounce of bold-sulphur cream and apply it directly upon the abrasion like an ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very wel-come.
